

Verified Onboarding for Colleges, Employers & Students

Create Your PlacementConnect Account

Every PlacementConnect account is linked to the appropriate institutional, employer, or student workspace so records, eligibility, and placement activity stay connected to the right organization.

1. Student — Campus Code Onboarding

Use your college campus code (e.g., APX123) to verify your institutional roster and create your student account.

2. College / Training & Placement Office

Start your institutional onboarding and placement workspace setup.

3. Corporate Employer — Hiring Partnership

Set up your employer workspace to submit graduate hiring requirements and access institution-verified candidate cohorts.

Choose Your Role to Begin Verified Onboarding

Already have a PlacementConnect account? [Sign in to PlacementConnect →](#)

-  **Student (Campus Code)**
-  **College / TPO**
-  **Corporate Employer**

 Roster-Verified Student Onboarding

Enter Your Institution's Official Campus Code

Student registration is linked directly to your college's placement roster so your academic profile, readiness scorecard, and interview opportunities remain verified through your Training & Placement Office.

Official 6-Character Campus Code *

APX123

Verify Campus Code & Continue →

How Student Onboarding Works:

1. Campus Code Verification → 2. Student Account Creation → 3. Programme Track Selection → 4. Terms Acceptance → 5. Fee Payment

Testing or Reviewing Student Onboarding?

Use sample campus code **APX123** (Apex Institute of Technology (Sample Sandbox Cohort)).
